TAMS JOURNAL

Official Organ of the Token and Medal Society

VOLUME 9 AUGUST 1969 NUMBER 4 (PART2)

EIGHT YEAR INDEX 1961-68

VOLUMES 1-8

Compiled By Edgar Heyl

THE TOKEN AND MEDAL SOCIETY IN REVIEW

During the middle 1940's, a few avid token collectors, including the Fulds, (George and Mel), Max Schwartz, Jim Curto, and Maury Gould, discussed the possibilities of forming a group interested in tokens, medals and other related material. The few coin publications of the day mentioned the need of a group in this field, but there was no response.

Again, in 1952, the same group, with publicity furnished by The Numismatist, tried to get interested collectors to respond and there were less than ten who evinced any enthusiasm for the formation of a new group.

In 1960, more and more collectors were becoming involved in tokens and medals and the original die-hards, with the addition of such collectors as Clifford Mishler, Henry Spangenberger, George D. Hatie, Harry Lessin and others, held an organizational meeting on November 19, 1960 at the Michigan State Numismatic Society, Fall Convention, in Detroit, Michigan. At this meeting, the Society of Token, Medal and Obsolete Paper Money Collectors came about. Dr. George Fuld was selected as the first President and the objects of the Organization were discussed and outlined at the original meeting.

In 1961, the first Society Journal appeared, consisting of eighteen loose pages, and edited by George Fuld.

The first annual meeting was held in conjunction with the American Numismatic Association Convention in August of 1961 in Atlanta, Georgia. By this time the membership enrollment was already 522. A medal was struck to commemorate the event, and it was at this Convention that a great deal of discussion was spent on the selection of a new name. Various names were suggested and eventually, by a wide vote, the Token and Medal Society was adopted. This was partly due to the formation of the Society of Paper Money Collectors, who wanted to have their own organization of those interested in the field of obsolete paper money.

1961 saw the establishment of a TAMS library, with Clifford Mishler as the first Curator-Historian, as well as Librarian.

The second annual meeting of TAMS took place in Detroit in conjunction with the ANA Convention in August of 1962. There were nearly 100 members present and the total membership had grown to 655, and by November 19, 1962, the second anniversary of TAMS, the membership had reached 700.

The year 1963 featured "A Code of Ethics on Reproductions" which had been worked out by a Committee of top exonumists. During this year, the third annual meeting took place in Denver, Colorado in August, and as usual at the ANA Convention.

The first official TAMS reprint in the field of exonumist literature took place in the same year, Dr. Benjamin P. Wright's "American Store or Business Cards."

The year 1964 showed a membership at the time of our Convention meeting of 758, with the enrollment of members reaching 936.

In 1965, Joseph M. Segel, President of the Franklin Mint, provided TAMS with a permanent endowment, "The Segel Literary Award," for the best article relating to the history and origin of medals and tokens during each year. During this year, the reprinted "Early Coins of America" by Sylvester S. Crosby was widely acclaimed and thanks were due to Alfred D. Hoch and his Committee for their excellent work in the reprint field.

In 1966, with the help of legal counsel Ellis Edlow, our Society was incorporated in the District of Columbia and the third official TAMS reprint, Robert P. King's "Lincoln in Numismatics," was produced. This was also the year for the first Past President's portrait medal, with Paul Hamm's the first to be minted.

Edgar Heyl, the author of the enclosed index, was given a special Presentation Award for compiling a comprehensive index to "King's Lincoln in Numismatic

In 1968, the Journal Editor, Clifford Mishler, arranged a cooperative program with the Canadian Numismatic Research Society for the publication of token and medal articles on Canadian subjects, as authored by its members.

With the great interest in the exonumia field today, our Society will grow and flourish and thanks are due to the early pioneers who always had faith in their unusual and special hobby.

For those of you who wish to read a comprehensive report on the history of our Society, it was published in June of 1968, Volume 8, No. 3 (Part 2) and authored by Clifford Mishler. In the same issue, it is also worthwhile to read the article "The Birth of Exonumist" by Russell Rulau, which tells the background and origin of a word so commonly used today in the numismatic world.

The TAMS Journal is the official publication of the Token and Medal Society, Inc., an educational and non-profit organization devoted to furthering the exonumist field. Founded on November 19, 1960, at Detroit, Michigan, the TAMS was incorporated April 8, 1966, in the District of Columbia.

All Society members receive the TAMS Journal without cost beyond their $4.00 annual dues, of which $3.50 is set aside to cover the subscription. Non-member subscriptions are $5.00 per year.

Entire contents — Copyright 1969 by the Token and Medal Society, Inc. Reproduction in whole or part without specific written permission prohibited. Cover design by Doug Watson; official emblem designed by Robert A. Johnson.

Published six times annually — the first of February, April, June, August, October and December — by the Token and Medal Society, Inc., at Iola, Wis. Second class postage paid at Iola, Wis., 54945.

FOREWORD

We are greatly indebted to Edgar Heyl of Baltimore, Maryland for this fine, comprehensive index, which will prove of great value to TAMS members, fellow numismatists and researchers.

"Ed" was born in Philadelphia in 1911, but has lived in Baltimore since the mid-1920's. He is a chemical engineer by education, with long experience in industry. In recent years he has been connected with a local management counselling firm.

In the field of Exonumia, his major collection consists of magicians' tokens and medals and it is possibly the largest in the world, being very close to 550 pieces. Along with these, he collects tokens and medals issued by American business firms and industries on the occasions of anniversaries. In addition, he also is interested in 19th century American bookseller's tokens. He is a prolific writer and has had five books and over seventy-five magazine articles published.

It is through devoted TAMS members such as "Ed" that we can continue to progress and mature into the finest token and medal society in the world.

M. M. G.

INTRODUCTION

With Volume 8, No. 6 of the bimonthly *TAMS Journal,* the Token and Medal Society, Inc. completed its first eight years. In that period, the society experienced a rapid and healthy growth rate, became the most important organization in the field of exonumia, and established a program of printing important books in the field. It also produced a journal which, thanks to the hard work and good judgement of the editorial staffs and the contributions of a large number of members, now has an enviable stature. For this reason it was decided that a complete and separate index was desirable.

Basically, this is the same type of index used at various times in the journal. However, in this case, an attempt has been made to broaden the coverage, so that it would be possible to find all of the information published on some particular subject or on exonumia originating in some specific geographical location.

Each article was indexed under the author's name and by the article title, listing of the latter being by the first significant word. The content of the title then provided the direction for further indexing. Thus it may have related to a token or medal, its maker and origin, a special subject or class of materials, etc. The article was indexed under each applicable category. In addition, where a city was mentioned, indexing was both under the city and the state in which it was located. In the case of foreign exonumia, listing was also under the country of origin. Many of the article titles were rather general in nature, and in these instances enough information was secured from the text to permit adequate indexing. An example of the listings for one article should show the nature of the index:

(References are given to volume and page, Roman numerals for the first five volume numbers, and Arabic for the rest.)

The Complete File of the TAMS Journal

In its short history, our society has had three names and its journal several titles. Publication ranged from four to six times a year (total issue, 39 numbers plus a supplement), and there were a number of changes in publication style. Because of these factors, it was thought advisable to provide collectors (and library cataloguers) with a concise publishing history of the periodical.

Founded 19 November 1960, the society bore the ponderous name, Society of Token and Medal and Obsolete Paper Money Collectors, and the frequently used abbreviation STM & OPMC was no improvement. In the latter part of 1961 the society excluded the obsolete paper money field, the name was changed to the Token and Medal Society, and the publication became the *Journal of the Token and Medal Society*. This lasted until January 1966 when the popular and pronounceable acronym TAMS was officially adopted and the magazine became the *TAMS Journal*. On 8 April 1966 the society was incorporated and its name became the Token and Medal Society, Inc.

The size of the journal has been maintained at 8½" x 11" with no significant variation in size. The text of the first five volumes was reproduced from typed copy, and these issues were punched for a standard 3-ring binder. All of these were self-wrappered, but beginning with Volume 6, No. 1 the use of flexible board covers was initiated. This issue also saw the beginning of typeset text. All issues were illustrated. Pagination was continuous within each volume, but the flexible board covers were not included in the pagination. Publication locations varied, but since March 1966 it has been Iola, Wisconsin.

Statistical Summary

Quarterly Bulletin — All numbers of Volume I carried this sub-heading, but the first two numbers had no other title. Each number through Volume III, No. 3 was issued in the form of loose sheets.
